DETAILED ACTION

- This office action is responsive to the following communication: Amendment filed on 05/17/2006.
- Claim 3 is pending. Claims 1-2 have been cancelled.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

Regarding **Claim 3**, in the examiner's opinion, it would not have been obvious to have the invention as claimed. The closest prior art of record cited Hisatake (US Patent 6,065,036), Atobe et al. (US Patent 6,281,979 B1) and Yoshida et al. (US Patent 6,130,757), fails to teach or suggest "a remaining capacity detecting means for detecting a remaining capacity the first storage means; a first necessary storage capacity estimating means for estimating a first storage capacity so as to preserve the first storage capacity as a first threshold value; a second necessary storage capacity estimating means for estimating a first storage capacity so as to preserve the second storage capacity as a second threshold value; and a second control means for transmitting the image data, of a job having a lowest priority order among the plurality of jobs, from the first storage means to the second storage means when the remaining capacity of the first storage means becomes not more than the first threshold value; and for returning the image data, of the job having the highest priority order among the plurality of jobs stored on the second storage means, from the second storage means to the first storage means when the remaining capacity of the first storage means recovers to not less than the second threshold value". Including the

above-mentioned features of Claim 3 to a multi-job copying machine, in the examiner's opinion, would not have been obvious. Therefore, because of these features, Claim 3 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
